Do or Die

Testament

Living my life on borrowed time
Watching my dreams disappear
My fists slowly clench as my mind seeks control
My body trembles in fearLife was looking up for me when I left home
It seems like yesterday
Now I'll never go back there again
Here is where I'll stayNobody can hear you scream or shout
Once you're in, you won't come out
You will never see the light of day
I'm the hunter, you're my prey!Watching the clash between the forces below
From up in the planes we're flying
Survivors are taken as prisoners of war
The others are slowly dyingI shiver as we strap on our parachutes
We line up to jump out the doors
We're already there and there's no turning back
I fall to the scene of the warNobody can hear you scream or shout
Once you're in, you won't come out
You will never see the light of day
I'm the hunter, you're my prey!You can see me flying right over your head
Try to stop me, you can't 'cause your armies are dead
To cross the blood red trenches of the dead below
Do or die, Hell's the place you'll goLiving my life on borrowed time
Watching my dreams disappear
My fists slowly clench as my mind seeks control
My body trembles in fearLife was looking up for me when I left home
It seems like yesterday
Now I'll never go back there again
Here is where I'll stayNobody can hear you scream or shout
Once you're in, you won't come out
You will never see the light of day
I'm the hunter, you're my prey!
