

Lost in the Crowd

Chris Pickering

Should I offer up my hand
And save a wish for once
For all of us
And should I offer up my hand
And lay the guilt on myself
So it's easier to not stay
To not stay
[Chorus:] Because I found you in your corner
I pulled you out of the clouds

You left in such a hurry
Your face is lost in the crowd
Should I open up my eye's or just ignore who you are
And what you could have been
And should I open up my eye's and make believe you will change
So it's easier to not stay, to not stay
[Chorus] Your face is lost in the crowd
Your face is lost in the crowd
