Terrible Vision

Rhett Miller

I had a dream I was employed at my old position
As your second string it cut me down to the quick
It hurt so badly who's to say is it possible
It felt like it was real there was no God, I could believe in
You've got terrible vision if you don't see
That I'm in love with you and how that means everything
I had a dream that you were gone it was a heart condition
Like I'd never known what my name was, you couldn't see me
You've got terrible vision if you don't see
That I'm in love with you and how that means everything
If I had known that you could leave, I would've stolen myself out
As it is I'm so in love there is no God
It was a dream that's all it was, you've got to wake me up now
You've got to wake me up now, you've got to wake me up now
You've got to wake me up now
You've got terrible vision if you don't see
That I'm in love with you and how that means everything
You've got terrible vision if you don't see
That I'm in love with you and how that means everything
