Willow Wand Willow Wand

Jason Lytle

Dearest dying darling
Please forgive me he said
For leaving my true love for deadShe flashed him near a message
Asking how to get home
Although he'd knew she'd never comeStill he said willow wand willow wand
Willow wand willow wandHe said willow wand willow wand
All the way home
Willow wand willow wand
All the way home
Willow wand willow wand
All the way home to meHe said willow wand willow wand
All the way home
Willow wand willow wand
All the way home
Willow wand willow wand
All the way home to meHe said willow wand willow wand
All the way home
Willow wand willow wand
All the way home
Willow wand willow wand
All the way home to me
All the way home to me
