

This Song Is About Being Attacked By Monsters

Leathermouth

We need a doctor, a f***ing doctor
(*something I can't understand sorry* keep your f***ing eyes open! To stay alive!)
There coming in through the windows (windows),
And breaking through all the boards I nailed up (I nailed up)
They look like they've been through hell and back
and they have only one thing on their minds.

We need a plan (x11)

We need a doctor, a f***ing doctor.
Just get a gun(x6) , we'd better run.
Just get your gun(x3) and f***ing run!

We need a doctor, a f***ing doctor.

they found a hole in the basement door.
There coming up through the floor boards.
I got enough ammo but i should have prayed for more guts.
I don't care what you think,
I just care how you shoot.
They don't care who you are,
they just care how sweet the blood.

We need a plan(x11)

We need a doctor, a f***ing doctor.
So get your gun(x6) and f***ing run!
Get your gun!(x2) and then run!
We need a doctor, a f***ing doctor.

Someone send me the troops.
Get a plane in the air(x2)
We need emergency help!
Where the f*** did you go!?

I'm on my own now!(x2) Oh god! I'm on my own.
Someone send me the troops.
Get a plane in the air.
Where the f*** did you go!?(x2)

I'm on my own(x2) I'm on my own now(x2).

(Get the f** off me! Send me the troops! Get a plane in the air!)

They got a hold of me now. Its all over(x4)!!!!
