You Make Me Happy

Caylin Cervetti

you laugh at the strangest things
and sing just a little off key
the adjuster in the land of kings

but I'll always love you, da da da da da
cause you make me happy, da da da da da
and I'll never leave you
cause you make me happy, da da da da da
da da da da da da da

you talk just a little too long
and your stories go on for hours
you'll never fit in with the crowd

but I'll always love you, da da da da da
cause you make me happy, da da da da da
and I'll never leave you
cause you make me happy, da da da da da
da da da da da da da

no stranger have you ever met
a mention a name of a friend
that more often than not you forget

but I'll always love you, da da da da da
cause you make me happy, da da da da da
and I'll never leave you
cause you make me happy, da da da da da
and I'll always love you
cause you make me happy, da da da da da
and I'll never leave you
cause you make me happy, da da da da da
da da da da da da da
