

Smoke (feat. Abbey Smith)

Luke Levenson

Abbey Smith:
mmm mmmmm mmmmm
ohhhh, breathe in that smoke while you drive

ahh breathe in that smoke
while youu driiive

Luke Levenson:
So many books I can read.
oh they make me feel happy
But I write em' in a sad life
trying to make a new life
I used to spend all my money
that I got from my job
Better offer got a job
need a chance to spend all the dances
all the pretty prances
that help me write a new song

And that gives me a good chance to be
a woman
I don't wana see ya
I dont want to see you
no

And I know what It means to be covered in good music
that you breathin'
but I'm here now
and I breath loud

Luke & Abbey:
breathe in that smoke while you drive
baby
I breathe in that smoke while you drive

heard a call
in a bathroom stall in Harlem

oh, words were heard but I was
there with my Church we didn't bother

My mind is small but the world is large
oh brother

I pray to your Lord Jesus
as long as you and all your cronies smoke another
Luke & Abbey
breathe in that smoke while you drive

baby
I breathe in that smoke while you drive

And now that I'm unemployed
need to find a way to support

all the crazy little hobbies
that they used to stop me
demons of the melodic noise
like the trouble in music
(music, yeah)

I need music it keeps me grounded (baby)
second knock comes to the door

I hit the floor
when the bass hits my board
I pray to The Lord

But I found myself watching the world
in a crazy new optimist way
I'm feelin' gorgeous
Iiiii'm feelin'

all the dark that I've seen ever happen to me and I
shove them awaaay
away away away

away
away away away away away aaaway
awwwwaaaaayyyyyyyYY

I light this cigarette
and I breathe in that smoke while you drive
I breathe in that smoke while youuuu driiiive

heard a call in a bathroom stall in harlemm
hearts were hurt
but I was there with my Church we didn't bother
Said my
mind is small but the world is large

oh brother
I pray to your Lord Jesus
as long as you and all your cronies smoke another
breathe in that smoke while you drive
 baby
I breathe in that smoke while you drive
breathe in that smoke while you drive
 baby
I breathe in that smoke while you drive
