What's It Gonna Be

Ratt

Oh yeah
My, my, myThe long nasty fingers
The sensation lingers
You make your love better than you make up your mindMy finger's been shakin'
(Shakin')
It's my heart you're breakin'
The promise was empty and your blood runs cold
So tell meWhat's it gonna be, sweet Elena?
Just cut to the straight, is it him or me?
What's it gonna be, my Elena?
Should I be waiting for the Heaven to fall?I can feel the danger
(Danger)
We're living like strangers
It's two different worlds
And maybe you can live in bothAre you sin or sinner
(Sin or sinner)
Who'll keep me warm this winter?
I can tell something's wrong
You've fallen for another man
Is that true?What's it gonna be, sweet Elena?
Just give it to me straight, is it him or me?
What's it gonna be, my Elena
Should I be waiting for the Heaven to fall?What's it gonna be, sweet Elena?
No matter what you say, it's gonna end up the same
What's it gonna be, my Elena?
Burnin' all your bridges, we'll put out the fire
I'm not DutchI missed the message but I sure got the point
That shook his nerves of steel
Should keep my distance but what can I say?
I find it hard to keep her pushin' away
I, I just got to knowWhat's it gonna be sweet Elena?
Just give it to me straight, is it him or me?
What's it gonna be my Elena?
Should I be waiting for the Heaven to fall?What's it gonna be?
What's it gonna be?
Should I be waiting for the Heaven to fall?
