

Brand New Disease (McGowan & Moss Padapella)

Jessica Vale

I think I've seen you before
And I have opened the door
But not this time
It's like the next time you fall
Yeah, it is the start of it all
We're out of lineIt's a disease
Do as you pleaseI am my darknessAnd don't you cry yourself to sleep
Wishing strangers we'd meet
I've seen this before
I should want it more[Incomprehensible]It's such a hard thing to find
I'll never have peace of mind
Where have you gone?
It's like a brand new disease
It comes and goes with the breeze
We're holding onI am my darkness
Down on my knees, you come to me
Tear down the blindnessAnd don't you cry yourself to sleep
Wishing strangers would meet
I've seen this before
I should want it moreAnd don't you cry yourself to sleep
Wishing strangers would meet
I've seen this before
I should want it moreAnd don't you cry yourself to sleep
Wishing strangers would meet
I've seen this before
I should want it more[Incomprehensible]It's a disease
Do as you pleaseI am my darkness
Down on my knees, you come to me
Tear down the blindness
