Faith

Shawn Mullins

Pain, come no more Dont you come knockin on my door
Love, dry your tears You have lived a life way beyond your yearsAnd faith, when youre gone
All my demons and my devils they do me wrong
And faith, you let your light shine through
Let a ray of hope surround me
Just dont think I can make it without youHey faith, dont let me down
Let me know when I come back shell be around
Cause Ive been burned, a time or two
If she left me Lord, I dont know what Id doAnd faith, when youre gone
All my demons and my devils they
do me oh so wrong
And faith, you let your light shine through
You let a ray of hope surround me
Just dont think I can make it without youIn the morning you know I wake up with the dawn
Everyday, theres a way
You know I got to carry on
To know the way and take the road of right and wrong
And keep faith in my heart
Just keep faith in your heartPain, come no more
Dont you come knockin on my door
Love, please be strong
Cause I need the peace of mind to carry onAnd faith, when youre gone
All my devils, all my demons,
you know, they do me wrong
And faith, you let your light shine true
You let a ray of hope surround me
You came back home and found me
Searching for the love I never knew
