

# Show Me

## Big Time Rush

Guys like me,  
Like girls like you  
And girls like you  
Like guys like me (You know)  
I blaze the night in harbour lights  
You dressin' light  
It's fittin' right  
I hear the waves  
I see you wave  
I'm staying put  
You say 'no way'  
The track begins  
You pull me in  
I touch ya skin  
You tremblin  
It's in ya eyes  
you're here to win  
So let the game, game begin

I I I I

Wanna see you you you you  
Tellin me that that that  
You got what I need  
Do pretty girl don't speak  
Baby show me  
By the way you hold me  
Way that you control me  
Speed me up or slow me  
Oh when I'm lonely  
Full of stormy weather  
Can you make it better  
I heard what you told me  
So-o oh show me  
Know what you want my number for  
Aint talked enough  
Lets talk some more  
You kinda cute  
Don't hit the mute  
Just stay in tune  
Walk in the mood
