Silent Angel

Axel Rudi Pell

Rainy days, cold nights to remember
Who will I find to stay forever
A life without you, no dreams will come true,
Won't be fooled just like a pretender

A whisper in the garden of eden,
Like a sound of love an' peace on earth.
Silent angel
I want to hold you
Silent angel
In my fantasy
Silent angel
Let me love you
Silent angel
Please stay with me
All alone, with a heart of stone
Candlelight never burns so bright
How can it be, that between you and me
Is no way out, out of misery

[repeat bridge]

[repeat chorus]
