Make a fool out of me heather mylesMake a fool out of me it don't matter
I don't even won't your sympathy
With tonight one more time
And no home with here tonight
I don't have another tear in me to cryJoe chattered ol my dreams in exportation
When I realised se was no passing face
No all I have the wordless piece of paper
And a memories that was more like you each dayMake a fool out of me it don't matter
I don't even won't your sympathy
With tonight one more time
And no home with here tonight
I don't have another tear in me to crysolo steelguitarI cry to pretend that you still love me
But not to low to high a price to pay
J pack my pried and leave my old illusion
And hope I make find love again somedayMake a fool out of me it don't matter
I don't even won't your sympathy
With tonight one more time
And no home with here tonight
I don't have another tear in me to cryGuitar solo
