

Meet Me in Montauk

Tj Smith

I'm alone inside this dream world in my head
I think I've lost all that I know
Because I can't remember what's happened here
So let me take apart my head
And every memory
And give you what you want, what you need,
What you still desire Cause it's so easy to fall in love
With someone that you've never met before
And it's so easy, to make mistakes
But never learn from them
But all I ever wanted was to find you here
And tell you everything you've always wanted to know
So let me take this time right now to say
Stay with me You know I wish that I could make up for my mistakes
But now there's nothing that I can do
Cause this is only a dream and I am only half awake
So take me at my word
When I say that I want you here
Don't run away, don't leave me all alone
Don't leave me to myself Cause it's so easy to fall in love
With someone that you've never met before
And it's so easy, to make mistakes
But never learn from them
But all I ever wanted was to find you here
And tell you everything you've always wanted to know
So let me take this time right now to say
Stay with me And there's so much I wish that I could say to you
In all these memories running through my dreams
Though I fear that you may just disappear
And as the time ticks and takes you away
I want you to know
It's not goodbye, no it's not goodbye for good
So sing goodnight, goodnight,
It's just goodbye for now
Cause this is only the end of one day,
And it's not goodbye for good When we wake up will we remember everything?
Will I recall your name or will it fade just like all of my other dreams?
Cause I know there's something more that I can't remember right now
So please tell me you won't disappear when I fall asleep...
