

# Hollywood Hearts

## Bobby V

Yeah, let's go  
Ya, Bobby V., yeah  
You can't believe how I do it  
Nothing to it, it's the blue end  
Fifteen on the hand bag  
Guarantee no chase, she love that  
Movin' back around  
Hit the best shot, make in town  
Look on Palm trees while we free  
This Cally life's for me  
No I don't wanna be here without you  
Now every time I go is without you  
Can we go, can we go babe  
Cruisin' throw the city, tap back  
Reminisce on the good times we had  
And all the radio they playin'  
Where did it go?  
I was so young, just dreamin'  
And I wake up on the roof top singing, singin', singin', singin',  
Where did it go?  
I was so young just dreamin'  
And I wake up on the roof top singin', singin', singin', singin', Run on booth what are we can?  
No creepy, no sleeping  
Just layin' on the white sign  
Just want the real would happen to us  
I wish it was you and me  
When I was down and now you are here for me  
The stars will start but chose to have my heart  
No I don't wanna be here without you  
Now every time I go is without you  
Can we go, can we go babe  
Cruisin' throw the city, tap back  
Reminisce on the good times we had  
And all the radio they playin': Where did it go?  
I was so young, just dreamin'  
And I wake up on the roof top singing, singin', singin', singin',  
Where did it go?  
I was so young just dreamin'  
And I wake up on the roof top singin', singin', singin', singin', Can we just go back to how it use to be

Girl can wake all back to the day when you were mine?  
To be my side, but I'm still alone in night  
You are having the beginning and now I'm out here thinking  
And I'm right here thinking: Where it go? I was so young, just dreamin'  
And I wake up on the roof top singing, singin', singin', singin',  
Where did it go?  
I was so young just dreamin'  
And I wake up on the roof top singin', singin', singin', singin',  
Tell me where to go babe?  
Ooh, yeah  
Now I wake up on the roof top singin', singin', singin', singin',  
Tell me where to go babe?  
Ooh, yeah
