

Funk Me

Marvin Gaye

If you let me girl
I'll be good to you
I will keep your tender body next to mine
Why don't you let me lady be good to you
I want to take care of you darlin'
All of your life and make love to you
If you let me baby Oh
I'll be good to you girl
Cause I love you darlin'
Your out of this World
Please make love with me
My love
Funk Me
Funk Me Funk Me
Funk Me
OOOh

I need us for me to love
Mother nature taught me love
We don't really have to freak
You just thrill me when you speak
I can see that your a Star
And I like the way you are
Funking music lights my Fire
Shakes my body sexified
Since we both have lots of love
Send some lovin' up above
Don't give me no added vice
See the love that's in my eyes
All I know is how much I love you Baby
Woo
Aw baby you know that I love you girl
Darlin' I liked to love you right now
right now forever more baby
Watching you over here dancin' on the floor
It makes me want to love all the more baby
For when we begin
I know my love for you
will never never end
Why don't you give me a chance

To prove my romance
I don't know if I can go on without
Having you for my own
Oh father above
Give me this lady to love
So I can love her right now father
All of my love for you to share
Thank you baby anywhere
I want to love you right now
Hey
Funk me if you got the lovin'
Got the desire
Funk me if you got the lovin'
Got the desire
