

# Forgive Me (For Giving a Damn)

## Doc Walker

I was the one  
Who was undone till you picked me up  
So, how did you fall so far from it all?  
Thought you were my rock  
So, why do you push me away? I'm not gonna stand here and watch you go down  
I love you too much, no, I won't let you drown  
And it just comes with being the man that I am  
So forgive me, forgive me for giving a damn Listen to me, I can't compete with this trip you're on  
And if you decide to take that ride, I won't come along  
'Cause I know just where it leads I'm not gonna stand here and watch you go down  
I love you too much, no, I won't let you drown  
And it just comes with being the man that I am  
So forgive me, forgive me for giving a damn I know you're scared and you just wanna run  
'Cause I've been there  
I know where you're coming from I'm not gonna stand here and watch you go down  
I love you too much, no, I won't let you drown  
And it just comes with being the man that I am  
So forgive me, forgive me for giving a damn Forgive me for giving a damn
