

# Just Like Yesterday

## Bread

Just like yesterday  
You come upon my mind and take it away...  
Just like at the time  
The things we did made our hearts skip away  
Down on my knees I prayed  
Kind woman don't go astray  
When it seems at times  
I've got my mind and heart all straight away...  
Just when you've become  
A mem'ry of the past and fade away  
I see your face and think of all  
Of all that we had  
With of the things that you brought me  
Now was it so bad  
... Makes me wonder...  
Just like yesterday  
You come upon my mind and take it away.
