

You And Me

The Flirts

You and me
Boy, our love was meant to be
You and me
Boy, our love is heavenly I know that what you want is something I can give to you
If you would only let me try
Only you can make me see it's me and you eternally
Come on and be my guy You and me
Boy, our love was meant to be
You and me
Boy, our love is heavenly I dream of you each night, when I'm awake and when I sleep
For me you are the only guy
I know I love you, a heart is sure enough to steal
I wanna be your only girl You and me
Boy, our love was meant to be
You and me
Boy, our love is heavenly All those other girls don't care for you the way I do
They just want you for physical reasons
But I want you for your mind
Maybe they give you thrills but I'm no one-night stand I dream of you each night, when I'm awake and when I
sleep
For me you are the only guy
Only you can make me see it's me and you eternally
Come on and be my guy You and me
Boy, our love was meant to be
You and me
Boy, our love is heavenly You and me
Boy, our love was meant to be
You and me
Boy, our love is heavenly You and me Boy, our love was meant to be
You and me
Boy, our love is heavenly
