

Christmas on the Road

Sleeping With Sirens

Snow is falling
Last train home
Hurry up its been too long
I know, I know
Been on the road a hundred days and I can't wait to see your face
Come home, she said come home
You been waiting so long for me
All I want is you this christmas eve
Hey baby, all I want for christmas is you, you
Hey baby, all I want for christmas is you, you
And I can't wait to come home for christmas
Never have our felt of cheer(?) this is my favorite time of the year
Its true, with you
The kids are playing wild and free
Light shining on our christmas tree oh oh
Yeah I'm home
You been waiting so long for me
All I want is you this christmas eve
Hey baby, all I want for christmas is you, you
Hey baby, all I want for christmas is you, you
You been waiting so long for me
I know that's not that fair
Now baby I come home on chrismas morning
Knock on your door, the snow is falling
You come out, come out to greet me
Wrap your arms, your arms around me
Kiss me underneath the mistletoe
I love you, love you so
Hey baby, all I want for christmas is you, you
Hey baby, all I want for christmas is you, you
Hey baby, all I want for christmas is you, you
Hey baby, all I want for christmas is you, you, you
And I can't wait to come home for christmas
