

# Malaria

## Nagamatzu

She's malaria, she's malariaSomewhere from another time  
Asiatic death  
Yellow fever bodies writhe  
Sugar on my breathIs this the final curtain?  
I don't believe what's happening  
She hides behind a veil of tears  
Plays upon my darkest fears yeahShe's malaria, she's malariaSwamp fever  
Water black as mud  
Strength fading  
Demon hold, hungry for my bloodSo desperately I cling to life  
Pain I know I must survive, entity  
She hides behind a veil of tears  
Plays upon my darkest fears, miseryShe's malaria, she's malariaDesperately I cling to life  
Pain I know I must survive, entity  
She hides behind a veil of tears  
Plays upon my darkest fears, miseryShe's malaria, she's malaria  
She's malaria, she's malaria
