

Inside Your Head

Tantric

And the nights grow colder
And the days get older
And the nights grow colder So many times, I thought
Of giving up, better luck this time
Things aren't gonna be this way And everything, I felt from my heart
From the start, I knew it then
I didn't have the strength to say Turn around to the sound of the voice that you're flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead Looking up all my life
But I just saw the sky
I couldn't look beyond myself to realize That the pain you come from is the
Pain you go through and you will do
Anything you can until you Turn around to the sound of the voice that you're flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead, yeah Turn around to the sound of the voice that you're flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead, yeah Turn around to the sound of the voice that you're flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead, now Turn around to the sound of the voice that you're flowing to
It's inside your head
If I said that I would then I could
And I shouldn't lie 'cause I'd end up dead And the nights grow colder
And the days get older
And the nights grow colder It's inside your head
It's inside your head
It's inside your head
It's inside your head (It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that
(It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that (It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that
It's inside your head

Turn around to the sound of the voice that
It's inside your head, yeah(It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that
(It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that(It's inside your head)
Turn around to the sound of the voice that
Turn around to the sound of the voice that
Turn around to the sound of the voice that
Turn around to the sound of the voice that
Turn around to the sound of the voice that
Turn around to the sound of the voice thatAnd the nights grow colder
And the days get older
