Moonrabbit

Cloud Control

Feeling free to see with other eyes
Now i'm looking for a clearer mirror
Really real that goes behind the eyes
Can i hold a vision now
Moonrabbit, i'm not crazy
Moonrabbit, you're the one that's crazy
Lay us down, burn the candles out
You let beauty be an answer now
I thought i saw, but see, i only thought
Can i hold a vision now
Moonrabbit, i'm not crazy
Moonrabbit, you're the one that's crazy
I'm not drifting by the dayslight with celebration
You should follow me till the midnight angel
You're inside of me
I'm inside of you
And it's long time
I'm just being wrong from that moment on, now
