

Work It Out

Marwan

Verse 1

So much has changed since we first fell in love
Something happened to me and you
We used to act like two people in love
But now we act like we're through
Do you still love me
'Cause I still love you
So baby why don't we do what we can
Oooh

Hook:

'Cause I'm hoping we can work it out
Hopin' we can work it out

Verse 2:

Time passes by, day after day
And we don't even say hello
And don't ask me how
Things got that way
'Cause I don't even know
But if you still love me
Like I still love you
Then lady why don't we do what we can
Oooh

Hook:

'Cause I'm hoping we can work it out
Hopin' we can work it out

Bridge:

Lady you may not know what you mean to me
And lady you may not know how I feel
But let me say this to you
Ain't nothin' I wouldn't do
To get our love where it used
To be
Ohhhh

Outtro:

Can we just work it out

Ohhhh
Work it out, work it out, work it out
Woooo
Can we just
Make it the way it was
The special way it used to be
'Cause it could be you and me
For eternity
If we just work it out
