

# Shadow

## Gringo Star

In the shadows everywhere you go,

Shadows

Hello, grooving kinda slow

Shadow

You keep looking for a spark to shine.

You got that rider deep inside,

You keep looking for a spark to shine all the way back on

In the shadows everywhere you go,

Shadows

Hello, grooving kinda slow

Shadows

You keep looking for a spark to shine.

You keep looking for a spark to shine all the way back on

All the way back on

I can see your eyes

I can see your smile

You had me for a while

But the moon is full

You keep looking for a spark to shine.

You got that fire deep inside,

You keep looking for a spark to shine all the way back on

All the way back on

All the way back on
