

Ghost (Fred Falke Remix)

Mystery Skulls

'Cause the world might do me in
It's all right cause I'm with friends
Cause I'm giving up again
It doesn't matterAnd I'm feeling like a ghost
And it's what I hate the most
'Cause I'm giving up again
And this time (this time, this time)This time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just disappear
Try and hear me then I'm done
'Cause I might just say this once
Seen this played out in my dream
It doesn't matterTime for givin' up the ghost
Fuck, it's you I hate the most
And there is no guarantee
It doesn't matterThis time I might just disappear
This time I might just dis
This time I might just disappear
This time I might just dis
