Expectations

Youth of Today

Please don't expect too much from me
I may not turn out how you want me to be
I'm sorry if I let you down
but I must decide where my future's bound
why don't you just slacken up
off my back your expectations are too much
off my back instead of just letting me be
you've got your goals set for me
I wish you could really be
happy with the real me
