

# Keep It Mello (feat. Omar LinX)

## Marshmello

Woke up and just felt right  
Phone blown like a tailpipe  
Today's schedule air tight  
I turn a short day into a long night  
See you soon if you got the heart  
Meet you outside reny park  
Hurry up it it's gettin dark  
We don't say too much  
And that says a lot  
Hoped into that old benz  
Drive through where that road ends  
Good times with some old friends  
I got just the thing if you so tense  
Burn one lets go do some  
She got me stoned as medusa  
Zoned out with a blank stare  
I'm lookin into the future..

Hold up ain't nothing gonna hold us  
Put the devil to the side  
Got an angel on my shoulder  
And I'm like hello  
It's good to finally let go  
I ain't worried bout a thing  
I just like to keep it mellow

Yea I like to keep it mello  
I smoke and keep it mello  
I drink and keep it mello  
Everyday I keep it mello  
Everyday I keep it mello

It's like 4 am and I'm bored again  
When that 40 end  
When that dream team all played out and they hit bench  
I just step back lemme soak it in  
I've Seen the ups and downs  
So I get it now, I was born to win  
It's my time bout time, my turn I can't lie

Waiting for that one spark  
My one hope to catch fire  
I'm fine , I'm high  
Light rain through the sunshine  
Tryin to man this old boat  
I'm the captain now and it's crunch time  
I don't care if I'm gettin paid  
Need the week but I get the day  
Wide awake when i need sleep  
I'm knee deep but I set the way  
Focused on that one mistake let it free don't let it break  
Fuck it all, I'm turning in  
My celly's off the great escape..

Hold up ain't nothing gonna hold us  
Put the devil to the side  
Got an angel on my shoulder  
And I'm like hello  
It's good to finally let go  
I ain't worried bout a thing  
I just like to keep it mellow

Yea I like to keep it mello  
I smoke and keep it mello  
I drink and keep it mello  
Everyday I keep it mello  
Everyday I keep it mello
