My Heart

Jennifer Hudson

1, 2, 3, 4
What's up girl? Let me holler at you for a second
I just want you to know all of those other girls
They never meant anything to me
You're the only one for me
You turned me on, sounds so good talking fast
But before we go on there's something I should ask
Not about your past 'cause I don't care who came before me
No my maturity's bigger than that
I am more curious 'bout what you truly want
Do I sense sincerity or just good talk?
I don't care about the rumor mill but be understanding
How you truly feel for me and yeah I want you sexually
But I ain't talking 'bout that, ain't talking 'bout them
Ain't talking 'bout her, ain't talking 'bout him
I'm talking 'bout trust, I'm talking 'bout truth
I'm talking 'bout me and what I'm giving you
This is my heart, please take care
This is my heart, always be there
This is my heart, something's you can't take
This is my heart, so whatever you do don't break my heart
Some girls are satisfied with cash in hand
And some girls are happy just to have a man
But my heart has my word to never put her in the way of harm
So even though I like your charm
I ain't talking 'bout that, ain't talking 'bout them
Ain't talking 'bout her, ain't talking 'bout him
I'm talking 'bout trust, I'm talking 'bout truth
I'm talking 'bout me and what I'm giving you

This is my heart, so treat it like gold
This is my heart, pretend that it's yours
This is my heart, it's too valuable to bruise
This is my heart, so whatever you do don't loose my heart
One night ain't gone get you nowhere, there's so much to learn
And what you dedicate to me you'll get back in return
Now my bedroom game is sick and that's only the half of it
I need more, I'm tired of the same
Give me more, before you give me game

I ain't talking 'bout that, ain't talking 'bout them
Ain't talking 'bout her, ain't talking 'bout him
I'm talking 'bout trust, I'm talking 'bout truth
I'm talking 'bout me and what I'm giving you
This is my heart, so before you tell a lie
This is my heart, draw me a line
This is my heart, remember pain so raw
This is my heart, so whatever you do please don't break my heart
Ain't talking 'bout her, ain't talking 'bout her
I'm talking 'bout trust, I'm talking 'bout the truth
I'm talking 'bout me and what I'm giving you
This is my heart
This is my heart
This is my heart
This is my heart, so whatever you do please don't break my heart
This is my heart
This is my heart
This is my heart
