

Grateful

[Patti Smith](#)

Ours is just another skin
Simply slips away
You can rise above it
It will shed easily It all will come out fine
I've learned it line by line One common wire
One silver thread
All that you desire
Rolls on ahead Like a ship in a bottle
Held up to the sun
Sails ain't going nowhere
You can count everyone Until it crashes unto the earth
Simply slips away
You can hide in the open
Or just disappear It all will come out fine
I've learned it line by line One common wire
One silver thread
All that you desire
Rolls on ahead Ours is just a craving
And a twist of the wrist Will undo the stopper
With abrupt tenderness
Die little sparrow
And awake singing It all will come out fine
I've learned it line by line One common wire
One silver thread
All that you desire
Rolls on ahead
