Dirty Little Secret

The Chevin

I light a candle
In the garden of love
To blind the angels
Looking down from above
I want, I need
The fruit of your vine
It tastes so bitter sweet
'Cause I know it's not mine
I want to go inside
Hit the lights and I'll come crawling to your window tonight
Come on and send the sign
I'll be your dirty little secret
And you'll be mine
You got me knock, knock knocking at your door
And I'll be coming back for more
We made a promise and we keep it
Our dirty little secret
We act like strangers
When you're holding his hand
'Cause there's a danger
That we both understand
We run like thiefs
Through the temple of sin
Till we fall on our knees then you go back to him
I want to feel alive
Hit the lights and I'll come crawling to your window tonight
Come on and send the sign
I'll be your dirty little secret
And you'll be mine
You got me knock, knock knocking at your door
And I'll be coming back for more
We made a promise and we keep it
Our dirty little secret
Hit the lights and I'll come crawling to your window tonight
Come on and send the sign
I'll be your dirty little secret
And you'll be mine
You got me knock, knock knocking at your door
And I'll be coming back for more

We made a promise and we keep it
Our dirty little secret
Our dirty little secret
Our dirty little secret
Our dirty little secret
Our dirty little secret
