Don't Say Goodbye

Chris Medina

In a world so cold
Not a hand to hold
Feel you're on your own
I'm there for you
When the day is done
And the battle's won
Know you're not alone
I'm there for you
Every night I'll be watching over you
Every dream you dream
Don't say goodbye, don't say it's over
I kissed you goodnight, I don't wanna go now
Every heartbeat is drawing me closer
Don't goodbye, don't say it's over
Yeaah (4x)
When you face your fears
Let me dry your tears
When your faith is gone
I'm there for you

Every night I'll be watching over you
Every thought you fear
Don't say goodbye, don't say it's over
I kissed you goodnight, I don't wanna go now
Follow your heart, wherever it goes
Don't say goodbye, don't say it's over
Yeah (4x)
When the pain's too deep,
And your eyes can't weep,
Just want you to know,
I'm there for you.
Don't say goodbye, don't say it's over.
I kissed you goodnight, I don't wanna go now.
Every heartbeat, is drawing me closer.
Don't say goodbye, don't say it's over.
Don't say goodbye, don't say it's over.
I kissed you goodnight, I don't wanna go now.
Follow your heart wherever it goes.
Don't say goodbye, don't say it's over.

In a world so cold...
