

# Lift Me Up (feat. Rob Halford)

## Five Finger Death Punch

It ain't no mystery  
I'm all I have left  
I'm pushing back running you over I've been thrown down,  
Run around  
Beaten 'til I hit the ground  
I'm telling you right now that it's over There's no room for mistakes  
All the parts are in place  
Say what you will but say it to my face Better back the fuck up  
Better shut the fuck up  
I'll do what I want  
And I'll never give up I won't be broken  
I won't be tortured  
I won't be beaten down I have the answer  
I can take the pressure  
I will turn it all around Lift me up above this  
The flames and the ashes  
Lift me up and help me to fly away Lift me up above this  
The broken, the empty  
Lift me up and help me to fly away I'm gonna change history  
Enlighten the world  
Teach 'em how to see through my eyes  
I'm gonna lash back check that fate as a heart attack  
Stomp out all the ugliest lies You can't convince me to change  
We ain't on the same page  
I've had my fill  
There's nothing but rage Best get out of my way 'cause there's nothing to say  
Is that all you got because I ain't got all day I won't be broken  
I won't be tortured  
I won't be beaten down I have the answer  
I can take the pressure  
I will turn it all around Lift me up above this  
The flames and the ashes  
Lift me up and help me to fly away Lift me up above this  
The broken, the empty  
Lift me up and help me to fly away I won't be broken  
I won't be tortured  
I won't be beaten down I have the answer  
I can take the pressure  
I will turn it all around Lift me up above this

The flames and the ashes  
Lift me up and help me to fly awayLift me up above this  
The broken, the empty  
Lift me up and help me to fly awayLift me up to fly away  
Lift me up to fly away  
Lift me up
