

Soul Experience

Iron Butterfly

Be yourself and live a little
Don't bother painting your face
Tomorrow it may rain and colors run
Better it quench the flowers thirst Don't be afraid to live a little
Don't be afraid of the people that belittle our love
Oh, our love, oh our love Open up your thoughts and listen to others
Your fellow man may surprise you
He offers a unique item, soul experience
Help yourselves to each other Don't be afraid to live a little
Don't be afraid of the people that belittle our love
Oh, our love, oh our love Open up your thoughts and listen to others
Your fellow man may surprise you
He offers a unique item, soul experience
Help yourselves to each other Don't be afraid to live a little
Don't be afraid of the people that belittle our love
Oh, our love, oh our love, our love Just be yourself
Just be yourself
Just be yourself
Just be yourself
Oh our love, oh our love, oh
