

Gone Pie

Patti Smith

Hey there
Come and take a walk with me
Stroll into infinity
We'll stroll along until the dawn is gone And ma-ma-midnight
Take it to the twilight
Just a little slice of light
Let's turn it off and on, off and on Strolling, ain't it wonderful?
Into a light that lingers
On and on, on and on, hey Oh, life
Just too great to sacrifice
Come on and have another slice
We'll take it all alone, all alone Strolling, ain't it wonderful?
Into a light where life goes
On and on, on and on, hey Life goes, ain't it wonderful?
Stars fall for we two
Bathed in a light of our Oh, life
And take it to the twilight
Just do not slice of light
Let's turn it off and on, off and on
And no, no Oh, life
Just too great to sacrifice
Come and have another slice
Oh, life goes on and on, on and on (Turn around, turn around)
Long life, may you live a long life
(Turn around, turn around)
Long life, may you live a long life
(Turn around, turn around)
Long life, long life
(Turn around, turn around)
