

Secret Society

Victim Kennel

Running against the law and against the time
Running against the law, against the time
Wondering what the fuss is all about
Finding a way to dream away your love
Taking it in before they take me outRunning against the law and against the time
Wondering what the fuss is all about
Finding a way to dream away your love
Taking it in before they take me outJust like a secret society, yeah
Just like a secret society, yeah
Just like a secret society, yeah
Just like a secret society, yeahJust like a secret society
Just like a secret society
Just like a secret society
