Baby, It's Me

Del Amitri

Who's gonna call you up every single day?
Who's gonna hold you high when stuff gets ugly?Cause baby if you wanna find someone
As big as a door that fits in your palm
A wall of support as small as a gun
Can't you see?
Baby it's meWho's gonna miss you just cause you leave the room?
Who's gonna kiss your brow when your dreaming haunts you?Cause baby if you wanna find someone
With all that they need but nothing they want
Full of themselves but with a hole where you aren't
Can't you see?
Baby it's meBaby it's meLiving in the lining
Where your coins are chiming
When we drive at night it's my eyes you're shiningWho's gonna call you up every single day?
Baby it's me
