

Children of the Wild (feat. Mako)

[Steve Angello](#)

We are children of the wild, we take our chance to face the fall
Go on and on and on, to chase our shadows of the wall
As children of the wild we make our choices on our own
Our path is full of fear for must be taken all alone We are children of the wild, we take our chance to face the fall
Go on and on and on, to chase our shadows of the wall
As children of the wild we make our choices on our own
Our path is full of fear for must be taken all alone
