

Rock the Ride (God of the Basement Remix)

The Asteroids Galaxy Tour

You break it down at the start
You tear it apart
Make it spin around again
You take it up to the stars
You glow in the dark
Cause you found your only friend
Into an ocean of beats
A drum on repeat
Now your head can take a swim
And you got blains on your feet
A nose with a need
The bridges are burnin' This cynical girl
Is ready to rule the world
Fake diamonds and pearls
Get ready to cool the world Oh come on rock the ride
Go go on break the chain
Oh come on rock the ride
Go go on break the chain
Oh come on rock the ride
Go go on break the chain
Yeah come on rock - the chain
Rock! Chain! Go! You shake it out of the frame
You shout out the name
Wanna have a little fun
You make 'em all go insane
You're changin' the game
And it's only just begun
You got a plan for tonight
Provokin' a fight
To the sound of the drum machine
And when the smoke in your eyes
Are twistin' your sight
You know that it's comin' This cynical girl
Is ready to rule the world
Fake diamonds and pearls
Get ready to cool the world Oh come on rock the ride
Go go on break the chain
Oh come on rock the ride
Go go on break the chain

Oh come on rock the ride
Go go on break the chain
Yeah come on rock - the chain
Rock! Chain! Go! It takes your breath away
It takes your breath away
It takes your breath away
It takes you all the way...
