

# All We Ever Find

[Tim McGraw](#)

Say exactly how you feel, right now you're free to say it all  
There is no one here to judge you, I only love you  
You're free to close your eyes and fall  
You can trust me this is real, say exactly how you feel  
Tell me all your dreams and what you think love means  
We'll lock the world outside embrace the gift of time  
Promising forever knowing that this moment  
Might be all we ever find  
Ever breath of who you are tells a story that I love  
I have finally found the truth in what I see in you  
And what I feel with every touch  
The simple beauty of your heart in every breath of who you are  
Tell me all your dreams and what you think love  
means  
We'll lock the world outside embrace the gift of time  
Promising forever knowing that this moment  
Might be all we ever find  
Tell me all your dreams and what you think love means  
We'll lock the world outside embrace the gift of time  
Promising forever knowing that this moment  
Might be all we ever find  
Promising forever knowing that this moment  
Might be all we ever find
