Assistant To The Regional Manager

The Devil Wears Prada

These writings are to those who have weeped
These writings are to those who haven't looked deeply enough
Into the correct resolution
Wrong again but stronger now, we can face this
Fight life with life, fight life with life
All glory to the One in existence
Bring upon Your name, Your grace, Your everything
All glory to the One in existence
Bring upon Your name, Your grace, Your everything
Hold hands and stare into the circle
What are we looking at?
Rumors and rumors and rumors
Rumors and rumors and rumors
Assembly, disintegration
Rumors and rumors and rumors
Perish, perish, perish, perish
Tombstones serve as mirrors and the graves are infinite
Take a look through the lens and through your eyes
End the partitioning
Wrong again but stronger now, we can face this
Fight life with life, fight life with life
Fight life with life, life
Enemies, we'll go for your throat
