

The Other Side of Me

Anouk

Do I really want to know myself
Do I want to see
Why I'm wonderin every morning, who it's gonna be today
Staring in the mirror, come tell me, who's that under my skin
And what's the reason they're here for
Tell me what is my own true face
Tell me what is my own true face
But hey here I come
I'm the show's main attraction
I'm a beautiful creature
That's what I am, yeah that's what I am
But the other side of me
I can't explain why I've become
Negative as can be
I'm wonderin' where it's coming from
I know I can't do without it, sure makes me what I am
So I will never stop believin'
In that I love myself someday
In that I love myself someday
But hey here I come
I'm the sows main attraction
I'm a beautiful creature
That's what I am, Hey that's what I am
