Sporadic Movement

CKY

vital signs are slow and steady
so attentive still not ready
as I was just about to say
you are the one that's over
I am sporadic movement
you are sporadic movement
hate is turning into hunger
just the guy to pull me under
I am sporadic movement
you are sporadic
I involve you
the energy dissolves you
a transformationa chemical in the brain is so loud
decision making, turning inside out
what you want nobody else has
a swift injection to contain this spazsnakes will burrow through my psyche
what it takes to lash a strike and
as I was just about to say
you are the one that's over
I am sporadic movement
you are sporadic movement
hate is turning into hunger
just the guy to pull me under
I am sporadic movement
you are sporadic
I invovle you
the energy dissolves you
a transformationa chemical in the brain is so loud
decision making, turning inside out
what you want nobody else has
a swift injection to contain this spaz
