

Push Up On Me

Monrose

Selecta, yes mann.

I like the way you push up on me (3x)

Selecta.

Oh my Selecta?s got the spot on fire
Spinning all the joints that make me wanna wind
Yes me ready, show ya how me mash it one time

It?s about to get dangerous

The rhythm got cha girl right here open

So island man can you handle this?

Gimme a little taste of what you gonna do

Boy, I wanna feel your move

Grind it up

Let me feel the truth

Work me up slow and drop it down low and break me off

Don?t know what I do without cha baby

Can?t afford to leave from this club without your name

And number up on this card, so call me

Twirk it, I like the way you push up on me

Don?t know what I do without cha baby

Can?t afford to leave from this club without your name

And number up on this card, so call me

Twirk it, I like the way you push up on me

Don?t know what I do without cha baby

Can?t afford to leave from this club without your name

And number up on this card, so call me

Come here boy and push up on me

Ohh wee

(You look so right its kinda) scary

(Ya whole get up, you swagger) daddy

Oh

Yes you proper boy come and push up on me

Its about to get serious

Something in my way, my uh got you rocked

So island man, hurry, hit the spot

Don?t take long, I?m waiting on you

Boy, I wanna feel your move,

Grind it up

Let me feel the truth

Work me up slow and drop it down low and break me off

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Come here boy and push up on me

I got ya posted up on the wall right were I want you
Your body's caught in the motion
I'm workin' my spell on you
It's even hotter when we get closer
You wanna stay here forever

I just met you baby
But I already know

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Come here boy and push up on me

Yeah, Selecta
Selecta

I like the way you push up on me (3x)
Come here boy and push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Don't know what I do without cha baby
Can't afford to leave from this club without your name
And number up on this card, so call me
Twirk it, I like the way you push up on me

Selecta

Come here boy and push up on me
