

# Down On Up to Me

## Soul Asylum

He's a stranger to authority  
Welcome to the minority  
It's not some place you have to go  
It's not something you have to know  
Don't do this, don't touch that, hey  
Draw the line [unverified]  
I'll speak my mind  
Maybe I'll wait for another time  
Sometimes you get close to those who wait  
Sometimes it makes you hesitate  
Some folks find more humanity  
Some folks find more than sanity  
Don't do this, don't do that, don't try this  
Don't do that, don't try this, don't touch that  
Hey, do it for the last time  
By the weight of the world coming down  
Down on, down on up to me  
Down on up to me, wait for another time  
When you look down on me  
I get so uppity, starting my own army  
Just me and my friends  
Said you better get ready  
Coming down, down on  
Down on up to me, down on up to me  
Coming down, down on  
Down on up to me, down on up to  
Though it might just come down to trust  
It sometimes just comes down to lust  
That's just one person's point of view
