

A Love Like Ours

Elastica

Getting better, on your feet
Take a look, kept in deceit
A love like ours will never dieBreak my bonds, break my back
Not a lot to break apart
A love like ours will never die
A love like ours will never dieBreak my bonds and break my back
Not a lot to break apart
A love like ours will never die
A love like ours will never dieGetting better, on your knees
Three times blind
Could not pleaseA love like ours will never die
A love like ours will never die
A love like ours will never die
