

# Make Friends With Time

## Last Days of April

time. thought i'd make friends with time.  
that's something that i wouldn't mind.  
to make friends with time.  
fear. whoever came too near.  
whoever made me feel like.  
i could love my whole life.  
it's only you.  
arms. how i hate autumn arms.  
around my throat until i choke.  
breathe in and breathe out.  
night. when i trade day for night.  
when everything seems alright.  
i break through thin ice
