

# One Mo'Gin

## The Child of Lov

I know some things have changed since the last  
I've seen you, some good, some for the bad  
All and all I can't complain that's what I've been through, baby  
But seeing you reminds me of the precious times we had  
I wondered all this time 'bout how you been  
And I hoped by chance, I'd see you once again  
I'd love to kiss your lips, baby, once again  
Long to hold you tight, girl, one mo' gin  
I know you got someone, I got somebody too  
But I'm unhappy and I miss the shit we used to do  
I miss your smile, your mouth, your laughter, baby  
I never bumped into your kind before or after  
I wondered all this time 'bout how you been  
And I hoped by chance I'd see you once again  
I'd love to kiss your lips, baby, once again  
Long to hold you tight, girl, one mo' gin  
I know you gotta be gettin' back to your own thing  
Baby, you got yours I got mine  
I hope you know that you could call me, girl, when things change  
If you want to we could catch up on some lost time  
I wondered all this time 'bout how you been  
And I hoped by chance I'd see you once again  
I'd love to kiss your lips, baby, once again  
Long to hold you tight, girl, one mo' gin
