

# Beyond Sensual

## Dies Irae

The inexorable aim, aim of illumination  
Verification of theories on different levels  
Engaged entirely beyond sensual  
Without consolation in half way  
Mode is direct, uncertain of significance  
Lost amongst gaping sea of views  
Diversification, deep urge  
Penetration of conditions  
Latent for mortals for their blares  
Unwitting way of answers  
Self assurance, lack of scrutiny  
Mixed with envy  
I am hungry, gaze delineate the path  
Of ubiquitous, I am immerse in this sea  
To fight right answer for right question
