

You Are God

Nelons

Your ways are higher than, anyone could understand
Your thoughts run deeper, You are God
You save but it's not because, of anything that we have done
But only by Your mercy and Your great love
You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God
The plans of the heart belong to men,
The outcome is in Your hands
Without You nothing stands, You are God
You hold the beginning and end, You know every where and when
Without You nothing would have ever been

You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God
With only a word, heaven and earth are set into place
Out of the dirt, You brought us all, alive and awake
When we fell dead in our sins, looking for love
You'd already made the way
Cause You are God, You are God, You are God
You are God, You are God, You are God
You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God
